Activities

1) Prepare a presentation in which you exemplify and clarify the following terms:
    a) A list of quick translations and meanings of the following terms: scroll down, scroll up, press and hold the left mouse button, drag and drop, hover over, double-click, right-click, tap, pinch to zoom, zoom in, zoom out, gesture.

    b) Explain, with the help of clarifying images:
        i) What is "focus" in the context of application forms. Talk about how it is shown visually, and what it does.
        ii) What are the differences between Checkboxes and Radio buttons. When do we use one or the other?

    c) Explain with examples the following app or website elements: drop-down button, card, badge, breadcrumb, tooltip.

2) Presentation:
    a) Use of creativity for the slides.
        i) A creative, efficient, and custom design has been used.

    b) Effort put in the oral part of the presentation.
        i) No helping notes are used, just the slides.
        ii) Anyone in the group can answer the questions asked on any of the terms.
        iii) I have the subjective impression that the student has taken this exercise as a challenge to improve their speaking skills.
